EXPERIENCE

Nexus Info
Web Development Intern   *May 2024 - Present, Remote*

Responsive Login and Signup Form
- Designed a responsive login and signup form template with email and password validation, featuring dynamic error messages and CSS animations for seamless transitions.

Restaurant Landing Page
- Created a sleek restaurant landing page with responsive design and authentication functionality, leveraging React for dynamic text effects and modern overlay aesthetics.
- Tech Stack: HTML, CSS, React, JS, MySQL, Material UI

PROJECTS

ELECTEASE (EJS, CSS, MySQL, NodeJS)
- Designed and developed a secure online voting platform with robust user authentication, JWT tokens ensuring a seamless and secure voting process for both conductors and voters.
- Implemented features such as a user-friendly interface, single vote restriction, and a secure tallying mechanism to ensure the integrity and efficiency of the election process.
- GitHub

JOKE API (JS, Axios)
- Developed a comprehensive RESTful API for managing a joke collection using Express.js, supporting CRUD operations including random retrieval, type-based filtering, and secure joke management.
- Implemented robust middleware for secure data handling and enhanced the API with features like bulk deletion via a master key for administrative control.
- GitHub

RECIPE NET (Java, Socket Programming)
- RecipeNet is a simple UDP client-server application for searching recipes using the Edamam API.
- GitHub

SNAKE GAME (Redux, p5.js)
- Developed a modern rendition of the classic Snake game using p5.js, incorporating arrow key controls for smooth navigation and dynamic food generation for an enhanced gameplay experience.
- GitHub

EDUCATION

Indian Institute of Information Technology, Sricity   November 2022 - Present
B.Tech in CSE
CGPA : 8.5/10

SKILLS

Back End:	NodeJS, ExpressJS
Front End:	HTML, CSS, JavaScript, React, Tailwind CSS, Material UI
DBMS:	MySQL
OS:	Linux, Windows
Languages:	Java, C, Javascript

COURSEWORK

- Operating System
- Object Oriented Programming
- DSA Problem Solving
- Computer Communication and Networks
- AI (Introductory)
- Database Management System
- Full Stack Development - Udemy

ACHIEVEMENTS

- Achieved Java Gold level badge on HackerRank, demonstrating advanced proficiency in Java programming.
- Solved over 400+ problems on different Coding Platforms such as LeetCode, GFG, etc.
